

LG SOLAR AC MODULE LIMITED WARRANTY

The limited warranties specified herein (hereinafter "**Limited Warranty**") apply to LG Solar AC Module models listed in Section 10 below (hereinafter "**AC Module(s)**") sold by LG Electronics U.S.A., Inc. (hereinafter "**LG**") and installed by licensed contractor under applicable federal, state, and local laws, and extend only to the original end use purchaser who purchased lawfully and subsequent owner(s) of the facility / project site at the location on which the AC Module(s) is originally installed (all such persons hereinafter referred to as "**Customer**" or "**You**"). The warranty start date ("**Warranty Start Date**") shall be the date of purchase by the original end use purchaser. If the Customer is unable to provide adequate documentation of the original purchase, the Warranty Start Date shall be ninety (90) days after the AC Module(s) was manufactured.

1. 25 Year Limited Product and Power Warranty

LG will, at its sole discretion, repair, replace or offer pro-rated refund of the AC Module(s) if it proves to be defective in material or workmanship for a period ending twenty-five (25) years from the Warranty Start Date under normal and proper installation, use and service conditions.

LG warrants that for a period of one (1) year from the Warranty Start Date the DC power of the AC Module(s) will be no less than 98% of the maximum power rating as shown on the label. Commencing on the second year from the Warranty Start Date, the DC power will decline annually by 0.3% for the remaining 24 years, so that during the 25th year, the DC power will be at least 90.8% of the maximum power rating. The DC power values shall be measured pursuant to the following LG's Standard Test Conditions ("STC") such as IEC61215 taking into account a $\pm 3\%$ measurement tolerance range: (a) light spectrum of AM 1.5; (b) an irradiation of 1000 W per m^2 and; (c) a cell temperature of 25 degrees centigrade at right angle irradiation.

If the AC Module(s) does not meet the warranted DC power levels set forth above when measured by LG or an independent measuring institute pre-approved by LG under the STC, LG will, at its sole discretion, either (i) repair the AC Module(s); (ii) supplement such deficiency in power by either: (a) providing additional AC Module(s) to the Customer, or (b) replacing the AC Module(s); or (iii) refunding the difference between guaranteed minimal DC power and actual DC power (measured by LG under the STC) multiplied by the then current market price of the AC Module(s) or a comparable AC Module(s) at the time of Customer's claim.

2. How this Limited Warranty Applies

The remedies set forth in this Limited Warranty shall be Your sole and exclusive remedies, and the original warranty period in this Limited Warranty shall not extend beyond the period set forth therein, nor will a new warranty period begin, upon repair, replacement or pro-rated refund due to power loss at LG's sole discretion provided under this Limited Warranty.

Repair or replacement will be made with new, refurbished or re-manufactured AC Module(s) or parts and the replaced AC Module(s) or parts shall become the property of LG. In the event the AC Module(s) is no longer available, LG reserves the right, at its sole discretion, to deliver new, refurbished or remanufactured AC Module(s) that may differ in size, color, shape, model number, and/or power level.

To obtain coverage under this Limited Warranty, You must initially contact LG for return authorization approval. Once approved, LG will send, at LG's cost, replacement AC Module(s) to You. You will then return the defective AC Module(s) using pre-paid shipping label provided by LG to LG's designated service center in either its original packaging, packaging from the replacement AC Module(s) received by You, or such other packaging pre-approved by LG.

Under some circumstances, You may be asked to provide credit card information as a deposit for advance shipment or the cost of unreturned defective AC Module(s). Your credit card will not be charged if You promptly return the defective AC Module(s) to LG.

In the event AC Module(s) fails to meet the Limited Warranty as described in Sections 1 above, LG, in its sole discretion, may support Your expenses incurred arising directly from de-installation, re-installation, or removal of such AC Module(s) up to \$450.00 per claim as approved by LGEUS for each Customer site. If AC Module(s) returned to LG is (i) not defective as determined by LGE; or (ii) excluded from coverage under this Limited Warranty; or (iii) without an LG return authorization approval, You are responsible for all return shipping costs associated with returning such AC Module(s).
